UNITED STATES DEPARTMENT OF AGRICULTURE
BUREAU OF BIOLOGICAL SURVEY
Washington, D. C.

May 13, 1933

MEMORANDUM TO ALL BUREAU FIELD OFFICES

SUBJECT: Press Clippings

I desire to express my appreciation of the cooperation of the field offices that are regularly sending to the Bureau press clippings touching upon, criticising, or commending the work of the Biological Survey and other branches of the Department of Agriculture.

The Director of Information of this Department has now expressed the wish that field offices throughout the Department clip also items on the new Emergency Farm Relief Act, particularly opinion in editorials. These may be sent without letter, as are other clippings, by following the directions on our press-clipping slip, Bi-599.

It is not desired to impose additional duties upon employees, but merely to solicit their help in making of wider usefulness and of direct aid to the Department the press items noted in the course of their daily reading. Many times such items afford information and suggestion obtainable in no other way, and these enable the Department better to plan its work and increase its service.

After clippings are noted in the Biological Survey, they will be forwarded to the Press Service, where they will be sorted and filed or referred to the various bureaus interested. Your interest and aid in this matter will enable the Biological Survey to cooperate as desired by the Department in developing this service.

Sincerely yours, .

Paul G. Redington
Chief
